

Chancellor's Message

In our efforts to deliver quality & career led education, we put more emphasis on determining one to one contact and also be very much attentive to vital needs of each student. Our faculty team relentlessly monitors progress of every student and guide them accordingly on the way to achieve all success in their life and career ahead.

Pramod Maheshwari [B.Tech, IIT-Delhi]

Pro Chancellor's Message

The development of a nation depends upon the quality of education made available to its people. This is why, one of the main objectives of "Human Resource Development" at university level education is expanding access and improving quality of the education especially in the regions where people do not have easy access to higher education.

Prof. (Dr.) P.L. Gautam
[Former VC CPU, Hamirpur]

Vice Chancellor's Message

We at Career Point University are creating professionals with Heart. It's our effort to make our students the best with the help of Industry linkages and extra curricular activities. Our mission is not to produce just a man fit for job but a person who values humanity, who could give his best to bring out the best.

Dr Sanjeev Kumar Sharma

Experiential Learning @ CPU

Technique of farming without soil

Agriculture Students have demonstrated hydroponic technique of farming that doesn't require soil for growth of plants. In this technique plants get their nutrition only through water. 8 to 10 plants are placed in a series in cylindrical pots and water is passed through a motor & all the minerals of soil are mixed in water in liquid form.

Go Kart for Elite Karting Championship 2017:

Students from Mechanical and Electrical branch jointly developed Go- Kart for Elite Karting Championship 2017 held at Bhopal. This was an international level Go-Karting event for all technical students. Due to their innovative ideas, excellent design and meticulous execution with set technical specifications; CPU students achieved 6th position among more than 100 teams in finale.

Students Spreading Wings with their Mentors Authored Books:

1. **Effect of Mango Shell and Nut Shell Ash as Pavement Material (ISBN 978-3-330-03578-2)** – by Tiza Toryila Michael, M.Tech Student and Er. Sitesh Kumar Singh, Assoc. Professor
2. **Comparison of Flexural Strength Values of Palm Kernel Concrete** – by Tiza Toryila Michael, Obam S. Ogah & Ukpong U. Emmanuel, M.Tech students

Pattal Making Machine:

There is an ample opportunity for the traditional patravali due to its environment-friendly nature and biodegradability. An attempt of fabricating low-cost and more ergonomic pattal making machine is hereby made. The machine is manually operated by a foot pedal, has a fixed upper die and a moveable lower die, and is composed of a heating element.

Briquette Compressing Machine:

- Mass Production of Biomass Briquettes.
- The Machine provides Rapid Prototyping & Mass Production of Biomass Briquettes and it requires less time to fill the patterns.
- The machine can form six briquettes at a time with the involvement of single person.
- The briquettes compression force is high as compare to manually operation, which provides briquettes with high strength, good texture, less water content ratio.

Bogie Mechanism: The model was developed as simulation for multi-purpose use in daily life. The design has no springs or stub axles for each wheel, allowing the bogie to climb over the obstacles. This mechanism is suitable for carrying items in shopping malls; one can find a separate place for carrying kids. This mechanism maintains the chassis in a balanced position, and avoids shocks even on an irregular surface.

Low Cost Hybrid Multi-Tasking Vehicle by Mechanical Branch students

A group of final year Mechanical Engineering students have developed a hybrid and economic transport vehicle which is beneficial to farmers and traders of small towns and villages. The engine is capable of generating a maximum transmitting power of 10 BHP and it can operate on battery or petrol. The fuel efficiency is 45 km per liter and it can carry a maximum load of 2 tonnes.

Electricity Generation from Swing: Mechanical Engineering, B. Tech students conceived and developed innovative idea of generating electricity from the swing.

STUDENT'S SPEAK

CPU creates an environment for innovative learning, enthusiasm for application of ideas, appreciation for growth and guidance. For their support, inspiration & motivation.

Ajj Mohammad working with **JNV Kaza**

It's been a privileged to be part of Career Point University as a Scholar. Regular classes, labs & training sessions helped me to be a job ready. Training and Placement Cell helped me to gain more confidence and providing us the way to crack interviews and debates, group discussion etc. So with the help of this I got many bright career options. Thanks to CPU Team.

Ambika working with **Xerox**

Training & Placement Cell works really very hard on students & that is why CPU has highest placement record in Hamirpur. I thank my professors and T & P Cell for providing me the best learning environment & exposure to industrial training.

Shilpa Kumari working with **National Control disease Centre Delhi, Govt. of India**

I am currently pursuing B.Tech from CPU Kota. CPU follows IIT, Delhi based academic system which enables us to gain more practical knowledge rather than to be a book worm. Teachers over here are cooperative and helping in nature. Academic system motivates us to explore ourselves more by providing us opportunities to participate in club activities.

Shreya Jain working with **TCS**

I participated in many activities like sports league, workshops & lead the hospitality team for various national & International seminars & workshops. Training & Placement Cell developed me in such a way that i had been able to crack Axis Bank interview in first attempt.
